LITIGATION

Our litigation attorneys handle disputes in Florida state courts, federal courts, and bankruptcy courts, as well as in administrative proceedings, mediations, and arbitrations. Our representation can span from pre-litigation disputes through the litigation process, including negotiating a settlement or bringing a case to trial and post-trial proceedings in the trial court. The subject matter areas of our litigation practice include medical malpractice defense, [estate and trust matters](#), real estate, bankruptcy, creditors' rights, employment (management), eminent domain, land use, health care, and business. Our clients include banks, trust companies, business entities, public institutions, private enterprises, charitable organizations, physicians, developers, and private individuals.
